SUBJECT INDEX

Activated partial thromboplastin time (aPTT) tests, 137-144
Acute care nurse practitioners (ACNPs), 254-257
Acute lymphoblastic leukemia, 328-338
Acute painful episodes
  and sickle cell disease, 152-159
Adrenocorticotropic hormone (ACTH), 8-19
Advanced practice nursing, 254-257
Anthracycline extravasation, 261-264
Anti-CD40L therapy, 145-151
Art therapy, 203-221
Ataxia, 8-19
Azathioprine, 145-151

Bereavement
  The Fall of Freddie the Leaf: A Story of Life for All Ages book review), 112-113
  and siblings, 222-226, 227-233
Bleeding disorders, 137-144
Bone mineral density (BMD), 328-338
Brain stem glioma
  neuro-oncology, 114-118
Buscaglia, Leo (book review), 112-113
Camps
  and health-related quality of life (HRQL), 89-103
  for siblings, 276-287
Cancer patients
  and cardiovascular disease, 38-47
  and clinical trials, 353-364
  and drawing as a communication tool, 203-221
  lived experiences of, 265-275
  and parent perceptions, 80-88, 276-287
Cardiovascular late effects, 38-47
Care planning, 194-202
Cerebral vascular accident (CVA), 160-167
Chemotherapy
  and cardiovascular disease, 38-47
  delivery process of, 31-37
  error reduction in, 20-30
  treatment of, 339-352
Childhood cancer, 305-319
Children's Healthcare Is a Legal Duty, Inc. (CHILD, Inc.), 48-57
Chronic refractory ITP, 145-151

  error reduction in, 20-30
  treatment of, 339-352
Childhood cancer, 305-319
Children's Healthcare Is a Legal Duty, Inc. (CHILD, Inc.), 48-57
Chronic refractory ITP, 145-151

Chronic transfusion therapy (CTT), 160-167
Clinical nurse specialists (CNS)
  and evidence-based practice, 261-264
Clinical trials
  role of nursing in, 353-364
Coagulation disorders, 137-144
Communication
  and cancer patients, 203-221
  and interdisciplinary care, 194-202
  parent-sibling, 276-287
Complete blood count (CBC) values, 152-159
Corticosteriods
  late effects of, 328-338
Cultural beliefs
  and medical treatment, 48-57
Cyclophosphamide, 145-151
Cyclosporine, 145-151

Daclizumab, 145-151
Danazol, 145-151
Dancing eyes, 8-19
Death-related sensory experience (DRSE), 104-111
Drawing as a communication tool
  and cancer patients, 203-221
Drugs
  shortage of (editorial), 303-304
Dying process
  death-related sensory experience (DRSE), 104-111
  The Fall of Freddie the Leaf: A Story of Life for All Ages (book review), 112-113
  and siblings, 222-226, 227-233
  see also End-of-life care

Education
  for nurses, 119-120
  for parents, 58-66, 112-113, 194-202
  sickle cell disease, 160-167
Enbrel, 145-151
End-of-life care
  and ethics, 114-118, 119-120
  and siblings, 222-226

Ethics
  and end-of-life care, 114-118, 119-120
  and neuro-oncology, 114-118
Evidence-based practice
  and clinical nurse specialists (CNS), 261-264
Ewing's Sarcoma, 339-352
Experimental Therapeutics Nurses (ETN), 353-364
Express Chemotherapy pilot project, 31-37
Extravasation, 261-264

Factor V Leiden thrombophilia, 176-181
The Fall of Freddie the Leaf: A Story of Life for All Ages (book review), 112-113
Family dynamics
  challenges of, 353-364
Fathers, *see* Parents

General Well-Being Schedule (GWB), 80-88
Grief
  The Fall of Freddie the Leaf: A Story of Life for All Ages (book review), 112-113
  and siblings, 222-226, 227-233
Growth hormone deficiency (GHD)
  and cardiovascular disease, 38-47
Guardianship
  loss of, 48-57

Hallucinations
  death-related sensory experience (DRSE), 104-111
Health care system
  problems accessing, 365-373
Health-related quality of life (HRQL)
  and camps, 89-103
Hemoglobin SS disease (Hgb SS), 160-167
Hemolytic disease of the newborn (HDN), 168-175
Hemophilia, 137-144
Home health care work
  of mothers, 365-373
HRQL (health-related quality of life)
  and camps, 89-103
Hypothalamic-pituitary axis (HPA), 38-47

Idopathic thrombocytopenic purpura (ITP), 145-151
Immune thrombocytopenic purpura (ITP), 145-151
Inherited coagulation disorders, 137-144
Interdisciplinary care, 194-202
Interferon α, 145-151

Kinsbourne syndrome, 8-19

Late effects
  cardiovascular, 38-47
  of treatment for childhood leukemia, 328-338
Lived experiences
  of families with children diagnosed with cancer, 265-275

Medical treatment
  refusal of, 48-57
Metastatic disease, 339-352
Moral beliefs
and medical treatment, 48-57
Mothers, *see* Parents
Myoclonic encephalopathy, 8-19

Near-death experience, 104-111
Neonatal alloimmune thrombocytopenia (NAIT), 168-175
Neonatal hematologic disorders, 168-175
Neuroblastoma, 8-19
Neurocognitive sequelae
  sickle cell disease, 160-167
Neuro-oncology
  brain stem glioma, 114-118
Neutropenia, 168-175

Nurse practitioners
acute care nurse practitioners (ACNPs), 254-257
advanced practice nursing, 254-257
education, 119-120
experimental therapeutics nurses (ETN), 353-364
future roles of (editorial), 249
history of, 250-253
research nurses, 353-364
roles of, 258-260

Obesity
and cardiovascular disease, 38-47
Opsoclonus-myoclonus syndrome (OMS), 8-19
Opso-myoclonus, 8-19
Orders
error reduction in, 20-30
Osteogenic sarcoma, 194-202
Osteoporosis, 328-338
Outpatient care
chemotherapy, 31-37

Pain
vaso-occlusive, 152-159
Palliative care, 119-120
Parahemophilia, 137-144
Paraneoplastic syndrome, 8-19
Parents
and clinical trials, 353-364
education, 58-66
lived experiences of, 265-275
mother's experience, 320-327
perceptions of, 80-88, 276-287
see also Siblings
Partial exchange transfusion (PET) therapy
polycythemia, 168-175
sickle cell disease, 160-167
Patient care
history of, 250-253
mothers' home health care work, 365-373
palliative care, 119-120
Patient education, 58-66
Patient satisfaction
chemotherapy, 31-37
Pediatric oncology
history of, 250-253
roles of nurse practitioners in, 258-260
Person Picking and Apple from a Tree (PPAT) assessments, 203-221
Phenomenology, 326-327
Polycythemia, 168-175
Predeath visions, 104-111
Prophylactic anticoagulation, 176-181
Protein C, 176-181
Prothrombin time (PT) tests, 137-144

Quality of life
and camps, 89-103

Radiotherapy
and cardiovascular disease, 38-47
Religious beliefs
death-related sensory experience (DRSE), 104-111
and medical treatment, 48-57
Research nurses, 353-364
Rituximab, 145-151

Siblings
involvement in patient care, 222-226
lived experiences of, 265-275
needs of, 227-233, 276-287
perspective of, 305-319
see also Parents
Sickle cell disease
neurocognitive sequelae, 160-167
and vaso-occlusive pain, 152-159
Splenectomy, 145-151
Stress
and communication tools, 203-221
Stroke, 160-167
Strong model of advanced practice, 254-257

Templated order sets
chemotherapy, 20-30
Thrombin time (TT) tests, 137-144
Thrombopoietin, 145-151
Thrombosis, 168-175
Transcranial Doppler screening (TCD), 160-167

Vaso-occlusive pain, 152-159
Venous thrombosis, 176-181
Veridical hallucinations, 104-111
Vincristine, 145-151
Vitamin K deficiency bleeding (VKDB), 168-175
